## SAFETY RECALL NOTICE

Dear BlendJet Consumer,

We are writing to let you know that BlendJet Inc. is voluntarily recalling certain BlendJet 2 portable blenders. We have determined that the bases in certain older blenders can overheat or catch fire, and the blades can break, posing fire and laceration hazards to consumers. BlendJet 2 units subject to this recall were distributed from approximately October 2020 through August 2023.

BlendJet has voluntarily undertaken this recall effort and we strongly encourage you to participate. We are working with the U.S. Consumer Product Safety Commission (CPSC) as a partner in this process.

Our records indicate that you may have purchased a blender covered by this recall.

### How Are We Making This Right?

Customers who have a recalled BlendJet 2 should immediately stop using the blender and contact BlendJet for a free replacement base.

### Is My Unit Affected?

You can easily check if you have a recalled BlendJet 2 by entering the serial number of your unit into the "Is my BlendJet 2 Recalled?" tool located at [www.blendjet.com/safetyandrecall](http://www.blendjet.com/safetyandrecall). Any BlendJet 2 with a serial number that begins with 5543 or a greater number is not subject to this recall, as it already features the updated base unit.

### How Do I Register?

Go to [www.blendjet.com](http://www.blendjet.com) and click on "Recall Information" at the top of the page for more information or go directly to [www.blendjet.com/safetyandrecall](http://www.blendjet.com/safetyandrecall). You may also call BlendJet toll-free at 844-334-0562 from 8 a.m. to 10 p.m. ET Monday through Friday.

At BlendJet, we design our innovative products with quality and care to help our dedicated customers make and consume healthy food on the go. We take the safety of you and your family seriously. This recall will help eliminate potential incidents involving older BlendJet 2 blenders.

Thank you for being a valued customer and for participating in this recall. We apologize for any inconvenience this situation may cause you.

Very truly yours,

The BlendJet Team
