STOCK TURN

Bottom Line Up Front: ROM 3 Stock Turn objective for Fiscal Year 2018 is 4.0.

Key Points on ROM 3 Stock turn

Stock turn is a measurement of the movement of stock through the ship's store. ROM calculates the monthly stock turn ratio by dividing the total sales for the last 12 months by the average 12 month inventory. ROM provides a report each month that shows: Month and Year, Total Sales and Stock Turn Ratio. ROM 3 Stock Turn report is only accurate after a ship has been on ROM 3 for at least one year.

TYCOM and NEXCOM establishes the target stock turn at the beginning of each Fiscal Year.

How do I get my Stock Turn Report?

Stock Turn Ratio Report can be requested through the Force SH (TYCOM), the Fleet Assist Teams, or NEXCOM.

Bravo Zulu

NEXCOM, Ship's Store Program would like to acknowledge and congratulate the following operations on a job well done for achieving or exceeding FY 2017 Stock Turn Goal:
